About

Wine Characteristics

2007 	Now-	A perfect Oregon vintage until the showers hit at the beginning of harvest. A vintage which taught us how great wet vintages can be.	If you are lucky enough to have these wines pick a special occasion and enjoy their gorgeous, velvet like, sandalwood richness.
2006 	Now-	A warm vintage that reminds us of the 2012 vintage that produced big, fruit forward wines.	We didn't think these wines would last but they are still opulent, fruit forward, complex wines that should be drunk now.
2005 	Now-	A beautiful warm vintage with a very cool autumn. Our second vintage at Lenné and all lots were blended together under the LeNez label.	One of the best wines ever made at Lenné. Still holding with gorgeous velvety texture and red fruited and sandalwood aromatics.
2004 	Now-	A beautiful moderate to warm vintage and our first from four year old vines.	Not as fruit driven as the wines to come after as our wine making style evolved in later vintages. Still, lots of richness here and holding its own 18 years later.
