

Events

Stay tuned to the web site for upcoming events. The pandemic has reduced our ability to offer fall events in an enclosed space though we are working on a rolling pick up party for the month of December.

Whats new in the Vineyard

The summer of 2020 was moderate in terms of the weather. We saw less than average temperatures above 90 degrees during the summer but are seeing some heat early in September. We are hoping for cooler weather to let the grapes hang longer.

Preparing for harvest means getting grape bins washed and ready as well as all of the other equipment in the winery. Harvest at Lenné is all done by hand and usually involves three or four picks spread out over 10 days. We anticipate harvest to start around the 20th of September which is near the same time we started in 2019.
